

Project Type	Question(s) Asked
Air Sealing	<ol style="list-style-type: none"> <li>1. Will your contractor follow Building Performance Institute (BPI) standards, energy star guidelines, and/or ASHRAE Ventilation standards?</li> </ol>
Duct Sealing	<ol style="list-style-type: none"> <li>1. Is total CFM leakage less than 6%?</li> <li>2. Will your contractor follow energy star guidelines?</li> </ol>
Attic Insulation	Enter the R Value
Wall and Crawl Space Insulation	Enter the R Value
Furnace	<ol style="list-style-type: none"> <li>1. Furnace Fuel Type – select gas or oil</li> <li>2. Enter Annual Fuel Utilization Efficiency (AFUE)</li> </ol>
Air Conditioning	<ol style="list-style-type: none"> <li>1. Air conditioning type – select central or split</li> <li>2. Enter Seasonal Energy Efficiency Ratio (SEER)</li> </ol>
Heat Pump	<ol style="list-style-type: none"> <li>1. Heat Pump Type – Air source or ductless</li> <li>2. Enter Seasonal Energy Efficiency Ratio (SEER)</li> <li>3. Enter Energy Efficiency Ratio (EER)</li> <li>4. Enter Heating Seasonal Performance Factor (HSPF)</li> </ol>
Water Heater	<ol style="list-style-type: none"> <li>1. Water Heater Type – conventional, hybrid, tankless</li> <li>2. Is your water heater energy star certified?</li> </ol>
Boiler	<ol style="list-style-type: none"> <li>1. Boiler Fuel Type – gas or oil</li> <li>2. Annual Fuel Utilization Efficiency (AFUE)</li> </ol>
